Thane, India | +917039165313 | imtiyazahamad703@gmail.com | [LinkedIn](#)

SUMMARY

Full-Stack Software Engineer with expertise in building scalable microservices, event-driven backends, and high-performance web applications. Skilled in modern frameworks (NextJS, NextJS, ReactJS) and leveraging LLMs, RAG pipelines, and WebRTC to deliver enterprise-grade applications.

EXPERIENCE

Software Engineer | mple.ai | Onsite, Nahur | Jan 2026 – Jun 2026

- Engineered a real-time AI coaching platform (Next.js/NextJS) with OpenAI/Gemini Realtime APIs and leveraging WebRTC and WebSockets for low-latency audio/video streaming.
- Designed robust RAG pipelines using Langchain and Faiss Vector DB to parse complex documents, ensuring highly accurate, context-grounded AI responses.
- Architected an event-driven backend utilizing AWS SQS to asynchronously process heavy ML workloads (RAG embeddings, evaluations) for high availability.
- Developed high-performance data & media pipelines, including a DuckDB/MongoDB analytical dashboard and a Fluent-FFmpeg microservice for automated PPT-to-Video generation with AI Text-to-Speech.
- Collaborated closely with cross-functional team members in a shared codebase to ship feature enhancements, debug production issues, and drive continuous product improvement.
- Technologies used:** TypeScript, Next.js, React.js, NextJS, MongoDB, DuckDB, AWS (SQS), GCP, Langchain, Faiss, WebRTC, WebSockets, FFmpeg

TECHNICAL SKILLS

- Programming Language:** TypeScript, JavaScript, Java, SQL
- GenAI:** LLMs (OpenAI GPT, Gemini Live/Vertex AI, Anthropic Claude), RAG, Prompt Engineering, NLP, Langchain, Faiss(Vector DB)
- Frontend:** ReactJS, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS
- Backend:** NextJS, REST APIs, Microservices, JWT, Kafka, WebSockets, WebRTC, Fluent-FFmpeg, Spring Boot, Spring Security, Spring JPA
- Database:** MongoDB, MySQL, DuckDB, Faiss (Vector Database)
- Cloud & Tools:** AWS (SQS, S3, EC2, RDS, Cognito), GCP (STT, TTS, Log Explorer, Cloud Run, Cloud Scheduler, Vertex AI), Azure (Cognitive Services), Docker, Git/Github, Postman

PROJECTS

FCP – AI-Powered Full-Stack Coding Platform | [GitHub](#)

- Architected a role-based coding platform using NextJS and React.js, featuring an Admin dashboard for managing AI-generated challenges and a Learner workspace for writing and executing full-stack code directly in the browser.
- Integrated Google Gemini AI to dynamically generate programming challenges, provide automated code evaluations, and power an interactive AI Chatbot that assists users with real-time debugging and hints.

Tech Stack: TypeScript, React, NextJS, MongoDB, Google Gemini AI (GenAI), Tailwind CSS, JWT, REST APIs

ExerLytix – AI-Powered Fitness Tracker | [GitHub](#)

- Engineered a comprehensive health platform featuring a custom Python/MediaPipe vision engine to calculate joint angles for real-time posture correction and rep counting.
- Architected a Spring Boot and React.js application integrating the ML service alongside third-party REST APIs for food calorie search, BMI calculation, and personalized daily diet tracking.

Tech Stack: Python, Flask, MediaPipe, Spring Boot, React.js, REST APIs, MySQL, Spring Security

QTrack – Smart Queueing Platform | [GitHub](#)

- Developed a smart queue management platform using a Spring Boot and React.js architecture, integrating WebSockets for real-time status tracking and QR codes for seamless user onboarding.

Tech Stack: Spring Boot, WebSockets, React.js, MySQL, Spring Data JPA, HTML Geolocation, ZXing (QR)

EDUCATION

- MCA – Vivekanand Education Society's Institute of Technology, Mumbai**
CGPA: 8.88/10
- BCA – Tilak Maharashtra Vidyapeeth University, Pune**
CGPA: 8.52/10

COURSES

- AWS Academy Machine Learning Foundations | AWS Academy Graduate
- Programming in Java | IIT Kharagpur NPTEL
- SpringBoot with Microservices | AshokIT Software training institute
